Office Space for the 21st Century

Features

The impressive fully glazed façade, rising to a full 5 storeys, is approached by a series of marble steps up to the elevated entrance hall.

There is a landscaped courtyard bordered by the building on 3 sides, providing a pleasant communal area for staff and visitors alike, to mingle and enjoy the outdoor ambience created by water features and carefully selected plantings.

Environmental

Fota Square is built to maximise energy efficiency and reduce overall maintenance and operational costs. Thanks to cogeneration, all businesses will reap the rewards of reduced consumption and lower energy costs for both heating and lighting. There are other features, which makes Fota Square a more sustainable long term proposition.

Specifications

This magnificent 5-storey office building is designed and built to meet next generation business requirements. The high specification fit-out, as expressed in the main Atrium & Foyer, indicates that this has the potential to be a first class corporate headquarters. Sleek, contemporary architecture, using creative combinations of glass and steel, fused with the liberal use of marble and walnut in the interior circulation area, to help create an ambience of sophistication and efficiency.

Flexibility

Fota Square can meet the requirements of most businesses, both large and small, with unit sizes from 250 sq.m. to 10,000 sq.m. There is a flexibility which is attractive to expanding businesses with high potential for growth.
